

SHIVR 3D NOISE CANCELLING HEADPHONES

An unmatched euphonic experience.

No, your mind's not playing tricks on you. This is what true HD sound is supposed to be. You will have the luxury to savor a stunning feeling.

Powered by Yamaha, the audio quality has never been this vibrant, this crystal clear until now. Until SHIVR.

What makes SHIVR unique?

High Fidelity Sound

Bluetooth Wireless

Industry Leading Hybrid ANC Technology

APF Technology

Equipped with advanced noise cancellation and 3D algorithm technology, this lightweight, adjustable and ergonomically designed headphone will bring you a unique listening experience by effectively augmenting the audio surround and allowing a precise sense of sound from different sources.

- Groundbreaking 3D Audio Algorithm ▪ Ultra-Advanced Noise Cancelling Technology
- Built-in Gyroscope Eliminates Listening Fatigue ▪ Ergonomically Designed for Maximum Comfort

Ultra-advanced noise cancelling technology.

While typical active noise cancelling headphones only use one mic to pick up and process ambient noise, SHIVR includes both feedforward and feedback mics. This ultra-advanced level of sound filtering provides the best noise-free experience in any environment.

Industry leading hybrid ANC technology.

Unlike similar products in the market, SHIVR has its own industry leading ANC technology that is substantially more flexible and effective in ANC performance.

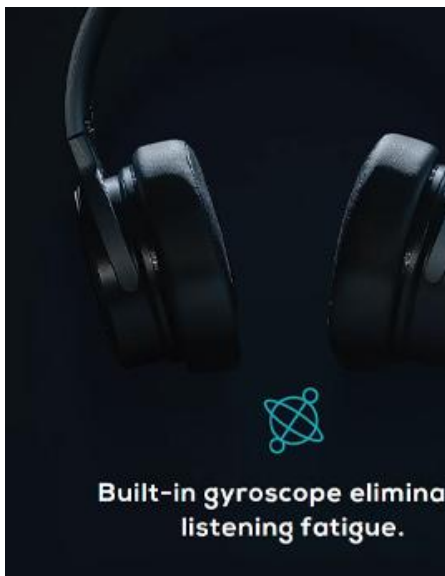

APF Tech brings the next big thing into the Audio SPACE.

Equipped with customized built-in gyroscope and advanced algorithm, our APF Tech brings a unique listening experience by effectively augmenting the audio surround and allowing a precise sense of sound from different sources.

Technical Specifications

Speaker	Speaker Driver Unit Impedance SPL Frequency Response	40mm 300 105dB SPL at 1 kHz 20 Hz - 20,000 Hz
Microphone	Directivity Amount	Omnidirectional 5pcs
Noise Cancelling	Noise Cancelling Type Frequency Response	Hybrid Digital Process 50Hz-9kHz
Bluetooth	Bluetooth Version Bluetooth Distance Transmission Frequency Transmission Frequency Pairing Name	V5.2 Up to 15m 2.40 GHz - 2.48 GHz SBC/AAC/APTX/AptX Low Latency SHIVR NC33
Battery	Battery Type Charging Input Charging Port Running Time Charging Time Operating Temperature	Built-in 700mAh Rechargeable Lithium Battery DC5V / 2.1A USB-C Up to 20H About 2 hours -10°C - 50°C

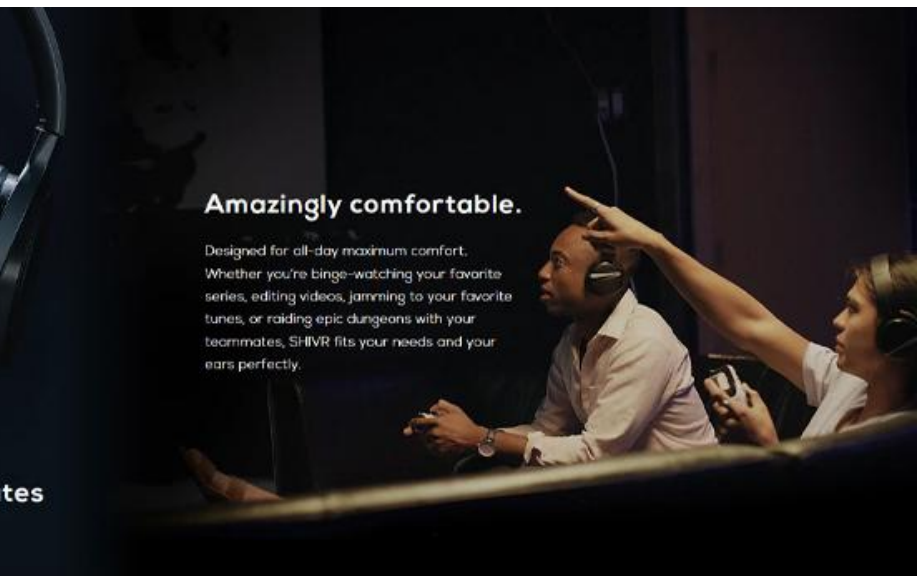

Amazingly comfortable.

Designed for all-day maximum comfort. Whether you're binge-watching your favorite series, editing videos, jamming to your favorite tunes, or raiding epic dungeons with your teammates, SHIVR fits your needs and your ears perfectly.

⚙️

Built-in gyroscope eliminates listening fatigue.
