HEAD LAMP WITH RED TACTICAL LIGHT

Red light is an irreplaceable solution in the dark. It is gentle on the eyes and provides much more peripheral vision than white light - as a result, we can see more than just the illuminated area.

4 OPERATING MODES

The white light of the lamp has a natural shade, thanks to which the colors of the illuminated objects remain natural. The user can choose to work in strong light, normal or low light mode.

RECHARGEABLE BATTERY

The lamp is equipped with a 1200 mAh battery, which allows for 4 hours of continuous white light illumination and up to 20 hours of red light mode. Charging takes place using the popular MicroUSB connector, so the equipment can be charged with the phone charger.

SPECIFICATION

Rated power: 3W

Color: Black, Orange

Rated luminous flux: >90lm

Color temperature: 6700-7500K

Charger voltage: DC 5V

Charger: USB cable 0.5 m
