- Unique memory wire design
- Superior feel and secure fit
- Powerful 8 hour battery life
- Graphene drivers
- BT version 5
- Comfort auto fit

Speed fit.
from head
to wrist in
seconds

Who is it for?

We made it super light weight which means its super comfortable
The perfect fit means comfort for everyday use
The titanium memory wire keeps the buds in your ears at all times so its perfect for running, workouts and sports

What is it?

Wraps GO is unique next generation V5 bluetooth headphone
Its special because it is made with a titanium memory wire that pushes the buds into your ears
When you are not listening to them you can store them on your wrist or bag strap

Why did we make it?

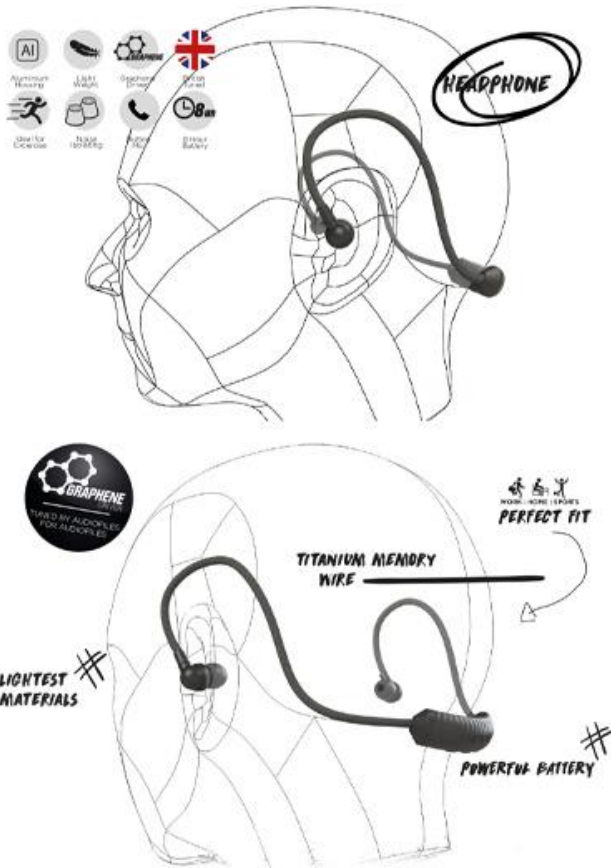

We made them for everyone, not just sports
We see a gap in the market for lightweight headphone that do not fall out your ears
We didn't want the bulk or the wires from a round neck bluetooth headphone
We wanted all this and a good sound for a realistic price with added storage features
We made it because we wanted it and know you will too

Why is it good?

It has graphene drivers, one of the best and lightest materials for making headphone speakers, google it!
We've been making speakers for 25 years, based in Britain we design and tune everything here in our lab in the UK
Its unique, theres no headphone like this in the world it sits in between TWS (AirPod) style headphones and BT neck headphones
Its better than both because they dont fall out or flap around on your neck

They never EVER fall out

wraps
WRISTBAND HEADPHONES

Graphene driver:

Hybrid graphene drivers, next generation materials which provide the most immersive sound experience

Comfort auto fit:

The memory coil function automatically returns the headphones to the coiled position. After listening they can be quickly transferred to your wrist as a bracelet, or wrapped around your bag strap for fast easy storage.

Comfort fit light weight:

The unique memory wire, patented design pushes the headphone tips into your ears for a secure fit, perfect for comfort and exercise.

Speed fit:

Connect, Wear, wrap or strap the WRAPS BT headphones in seconds

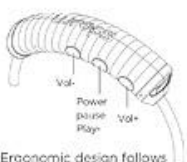

Powerful 8 hour battery life

Our Fit:

Noise isolating foam tips ensure a superior feel, fit and sound. Soft expanding, comfortable acoustic foam tips mould themselves to your ear canal, ensuring your headphones never fall out when moving. This perfect fit blocks out unwanted noise, whilst sealing in the sound, further maximising the performance of the earphones incredible sound quality.
